**ACES:**  
ACCESS COMMUNITY EDUCATION SERVICES

**At ACES (Access Community Education Services) everyone makes a difference. We help adults with a disability to get more from life, to learn new skills and to participate in fun, recreational activities and community service programs.**

Our service users enjoy a range of resources including friendly staff, fabulous volunteers, a spacious, well-equipped centre and specialised equipment.

Over the years we have forged strong community connections that allow people with a disability to get out into the community in a safe, enjoyable way.

The Hope Shop Café is one place where ACES people can participate in a supported setting.

If you are looking for:

- transition to work programs (TTW) to help young people move from school to work
- day programs & centre-based activities
- school-based traineeships
- independent living skills
- carer support/respite

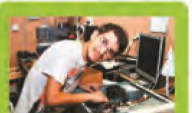

then come and talk with us. We will listen, share information and work *with* you.

The best way to find out more is to come and experience ACES for yourself - call Kathy on 6581 2348 to make a time to suit you.

*Note: volunteers always welcome.*

**at ACES**  
everyone makes a difference

 adult day programs	 transition to work	 community participation
 independent living	 fun and recreation	 learning new skills

Flexibility & personal choice are at the centre of everything we do - you choose the support you need, in a way that works for you.
